NARRATIVE REPORT

This is where you tell us what you've done and how it has gone for 2019-2020

- The template is back (on the CCG website)

- What is your change process?

  - (What data do you look at? Who is involved? What has your review shown is going well and not so well?)

- Reports aligned with Momentum Framework

NARRATIVE REPORT

Section 1: Institutional Mission and Student Body Profile

- Not a comprehensive review of your data and mission but a targeted discussion that explains:
  - Who you are
  - Why you are focusing your work where you are
  - Connect data tables to work you discuss later

NARRATIVE REPORT

Section 2: Improvement Practices (NEW)

Discuss the improvement practices that your institution has set up to remove or lessen the structural and motivational obstacles that students face and to improve the outcomes for your campus.

➢How do you understand your work?

➢How do you learn from your success?

NARRATIVE REPORT

Section 3: Momentum Update

Two parts:

1. Report on your existing/ongoing work. This will be much of the work that has comprised the core of the CCG updates previously

2. Update on your plans from the Momentum Summit III. This will reflect where you are on those plans and what changes are for this work.

• Include observations and next steps in this section.
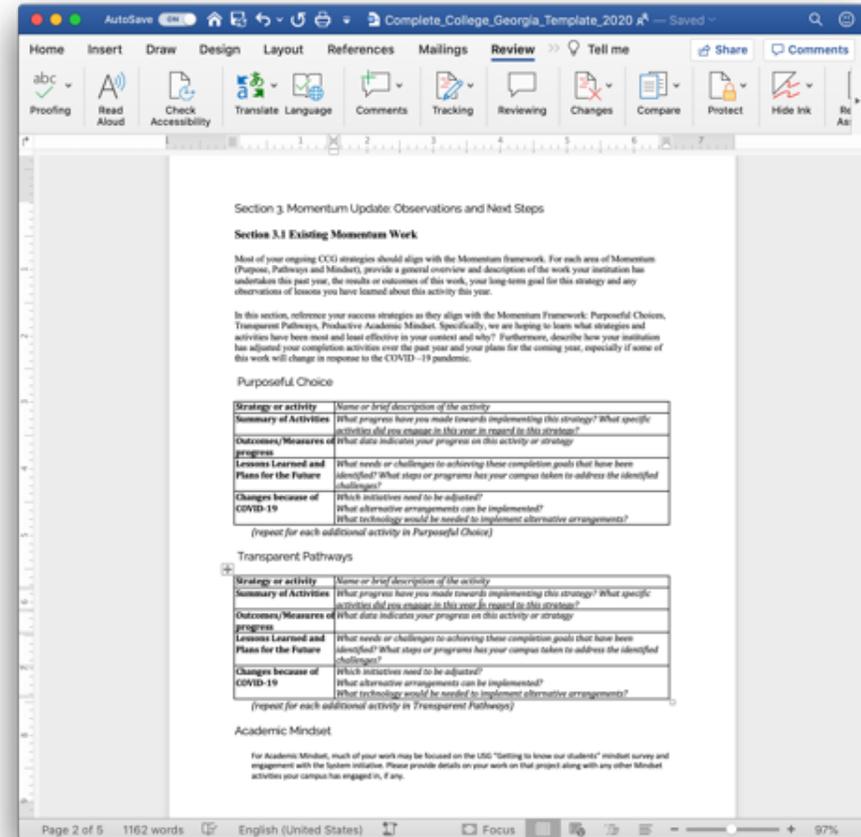

NARRATIVE REPORT

Section 4: Student Success Team

- List the members of your student success team (this list does not count against your total pages)

- Gives us a comprehensive sense of who is working on what work on campus.

NARRATIVE REPORT

The Template is Back!

- Word file

- Includes details for each element

- Repeat the tables as needed.

- Recommended, but not required.

NARRATIVE REPORT

COVID-19 Update!

- Using your existing Momentum Year and Momentum Approach plans the institution has already developed and begun implementing, identify any changes necessary to account for the need to practice social distancing. Institutions should identify:
  – Which initiatives need to be adjusted
  – What alternate arrangements can be implemented
  – What technology would be needed to implement alternate arrangements
